```php
        'features' => [
            Features::registration(),
            Features::resetPasswords(), /*
            // Features::emailVerification(),
            Features::updateProfileInformation(),
            Features::updatePasswords(),
            Features::twoFactorAuthentication([
                'confirm' => true,
                'confirmPassword' => true,
                // 'window' => 0,
            ]), */
        ],
```
